

# CEB

## Join us in celebrating the Committee on Evolutionary Biology's first 50 years!

### Special CEB 50<sup>th</sup> Evolutionary Morphology Seminar, Thursday, Nov. 21

Michael Foote speaks on “Diversity-Dependent Diversification in the History of Life”

- Pre-Seminar dinner at 6pm in Hinds 176
- Seminar at 7:30pm in Hinds 101

### Seminar and Reception, Field Museum, Friday, Nov. 22, 10am-6pm

CEB50 Seminar speakers, in order:

**10:00 am – 12:30 pm**

**Michael LaBarbera**

A brief history of the CEB

**Sharon Swartz**

Sweet Home Chicago! How my CEB roots motivate a more evolutionary biomechanics, with a case study from bat flight

**Lucinda Lawson**

Evolution in situ: intrinsic and extrinsic drivers of diversification and conservation challenges for uncertain species

**Brandon Kilbourne**

The evolution of specialized functions from suites of traits: insights from morphological diversification of mustelid morphology

**12:30 pm – 1:30 pm**

**LUNCH**

**1:30 pm – 5:00 pm**

**Alex Dehgan**

Hacking conservation & development

**Karen Sears**

The developmental basis of mammalian variation

**Anjali Goswami**

From development to deep time: a phenomic approach to reconstructing tetrapod cranial evolution

**Ana Carnaval**

A multidisciplinary framework for biodiversity prediction in the Brazilian Atlantic forest hotspot

**Nate Smith**

Early dinosaur evolution from the paleo-equator to the poles

**5:00 pm – 6:00 pm**

**CEB Reception**
