BOOKS FOR THE HUMAN BODY, 2019

REQUIRED

Gray's Anatomy for Students, 2nd Edition, Drake, et al; Elsevier Churchill-Livingstone ISBN-10: 0443069522, ISBN-13: 978-0443069529.

There is a third edition. I have not yet examined it. I am sure it is better and more expensive.

Wheater's Functional Histology: A Text and Colour Atlas, 5th or 6th edition by Barbara Young, James S. Lowe, Alan Stevens, and John W. Heath. This is also available on Inkling.

Thieme's Atlas of Anatomy (most recent edition is 3rd).
Gilroy, MacPherson, Ross (no relation). ISBN: 9781626232525

The University of Chicago Student discount can be accessed through here:
<http://www.thieme.com/resources/students/1012-special-discount-for-university-of-chicago>

TOO MUCH: *instead of the one volume Thieme Atlas*

If you really want to get fancy, there is a 3 volume Atlas from Thieme: The 2nd edition is the one you want because it has Head, Neck and Neuroanatomy in one volume.

Head, Neck, and Neuroanatomy (THIEME Atlas of Anatomy) 2nd edition
Schuenke, Schulte, Schumacher, Lamperti, Voll ISBN: 9781626231207

General Anatomy and Musculoskeletal System (THIEME Atlas of Anatomy) 2nd edition
Schuenke, Schulte, Schumacher, Ross. ISBN: 9781604069228

Internal Organs (THIEME Atlas of Anatomy) 2nd edition
Schuenke, Schulte, Schumacher, Ross, Lamperti, Voll. ISBN 9781626231665

Again, for U of C pricing:
<http://www.thieme.com/resources/students/1012-special-discount-for-university-of-chicago>

Also perfectly acceptable
Atlas of Human Anatomy, Netter; 7th ed., Saunders
ISBN-10: 0323393225, ISBN-13: 978-0323393225

Anatomy. A Regional Atlas of the Human Body. 6th ed., Carmine D. Clemente; Lippincott Williams and Wilkins
ISBN-10: 1609133080, ISBN-13: 978-1609133085

Gray's Atlas of Anatomy, Drake et al., Elsevier Churchill-Livingstone
ISBN-10: 1455748021, ISBN-13: 978-1455748020

Color Atlas of Anatomy 7th ed., Rohen et al. Lippincott, Williams and
Wilkins ISBN-10: 1582558566, ISBN-13: 978-1582558561
This is a photographic atlas, rather than a diagram atlas.

RECOMMENDED FLASH CARDS

Netter's Anatomy Flash Cards John T. Hansen; Saunders
ISBN-10: 1929007086, ISBN-13: 978-1929007080

Anatomy Flash Cards: Anatomy on the Go, second edition, Latin Nomenclature.
Gilroy, Broman, Josephson, Voll, Wesker, ISBN: 9781604069105
If Thieme comes out with a non-Latin nomenclature version, that would be better.

LECTURE MATERIALS

- Copies of the PowerPoint presentations used in lecture will usually be available on the course website by 7 pm the night before each lecture. If you prefer to take notes on a hard copy of the lecture slides, you must print them out yourself.

Entirely optional REFERENCE MATERIALS

Although you will definitely **not NEED** the following for Human Body, these are the reference books that I use in preparing lectures. If someone wants to buy you a special gift for medical school, these might be good options.

Gray's Anatomy 41st edition, edited by Susan Standring. Published by Elsevier.
The hard copy of the book has a scratch off code for accessing online material, which is definitely worth it, and you won't get this with a second hand version.

Robbins and Cotran Pathologic Basis of Disease, 9th edition. By Kumar, Abbas and Aster. This text is recommended in later courses at Pritzker. I use it to determine the points of emphasis in the histology material I deliver. Again, buying the hard copy gives you access to the online version. Of course, new editions come out and I cannot guarantee that the edition available now will be the edition available when you take later courses.

eAnatomy subscription: <https://www.imaio.com/en/e-Anatomy>

LAB MATERIALS FOR THE HUMAN BODY

- A laptop computer is needed for the histology labs. If you will not have access to a laptop to bring to class, please contact Pritzker in advance so arrangements can be made to provide a computer for you.
- Dissecting tools, gloves and protective eyewear will be provided.
- You will need a set of scrubs to wear in the dissection lab - (hand-me-downs are available on a first-come, first-serve basis, there are usually plenty).
- You will need a pair of old or cheap shoes with rubber/non-slip soles to wear in dissection lab. You will not want them back at the end of the course.
