

July 15, 2020

Dear Pritzker School of Medicine Entering Class of 2020:

Welcome to Medical School!

As a medical student, you are expected to have certain pieces of medical equipment as part of your training. We would like to outline the process for obtaining this medical equipment which you will be taught to use in the Clinical Skills courses during first and second years, as well as in your clinical clerkships in the third year.

To ensure that you have the required equipment, we have worked with Welch Allyn to provide discounted rates on the equipment that your course and clerkship directors recommend. There will be a \$515 equipment fee applied to your autumn quarter tuition bill. These charges will cover the expense of your medical equipment which is described as the “Standard Package”. (If you receive financial aid, the fee has already been included in your budget.)

On the reverse side of this letter there is a description of what equipment is included in the Standard Package. You will see, however, that there are other options available for an additional cost.

**Please note that this letter is to provide information only and there is no need to make any decisions now.** Additional information will be presented during orientation in August. *What you should be doing now* is considering if you want to stay with the Standard Package or:

**“Opt-Up”** – If you would like to purchase the alternate models of the equipment, you can pay the difference in exchange for these models.

**or**

**“Opt-Out”** – If you already own equipment that the Clinical Skills course director determines will satisfactorily meet your educational needs, you will be refunded the portion of the fee collected to cover the cost of those instruments.

(Note: These packages do not include a stethoscope because one will be provided to you as a gift from Pritzker and the Bucksbaum Institute for Clinical Excellence when you arrive at Pritzker.)

In the meantime, if you have questions, please do not hesitate to contact me at [kschwanz1@bsd.uchicago.edu](mailto:kschwanz1@bsd.uchicago.edu).

Sincerely,

Korry Schwanz  
Executive Director of Medical School Education  
Pritzker School of Medicine
