ERAS Overview

Agenda

• Review of MS4 Class Meeting #1
• Navigating ERAS
• Identifying and Applying to Programs within ERAS
Review
Timeline Review: July - August

July – August

Organize CV (follow template)

Meet with Dr. Fromme, if you have not already done so

+ Second meeting to review MSPE

Ask for Letters of Recommendation

Write your Personal Statement

Send a draft to your career and specialty advisors for review

Edit your ERAS application to near completion

This timeline is designed for students applying through the regular match.
Timeline Review: August – Early September

August – early September

- MSPE Review
- Continue to edit your ERAS application and Personal Statement
- LORs uploaded
Timeline Review: September 5-15

September 1  
Beginning of the four-week period where you can certify and submit your ERAS application  
(Programs will NOT receive apps before 9/29)

September 15  
NRMP registration opens  
(You must register for both ERAS and the NRMP)

September 29  
Programs begin receiving applications & MSPEs
Timeline: October - January

- **December 1**: PSOM Step 2 test date deadline
- **January 12**: Urology rank list deadline
- **January 31**: NRMP standard registration deadline
LORs: How many letters do I need?

Categorical Programs: 3-4 total letters
- 3 clinical letters
- 1 research letter (if appropriate)

Note: You cannot submit more than 4 letters to a single program.

Advanced Programs: 6-7 total letters
- Prelim/Transitional Year: 3 clinical letters
- Advanced Program: 3 clinical letters
  - 1 research letter (if appropriate)

Note: Letter writers can use the same letter for both applications, as long as they are generic in their specialty recommendation.

(i.e. “I recommend John Doe for your residency program” instead of “I recommend John Doe for your Pediatric residency program”)

Review
LORs: Do I need a Chair’s Letter?

- Anesthesiology
- Medicine*
- Medicine-Pediatrics*
- Preliminary Medicine*
- Obstetrics and Gynecology
- Orthopedic Surgery
- Otolaryngology (Section Chief)
- Pediatrics (some programs)*
- Plastic Surgery (Section Chief)
- Surgery
- Urology (Section Chief)

*Another faculty member writes the letter in conjunction with the Chair.

Emergency Medicine utilizes a “Standardized Letter of Recommendation”, and Plastic Surgery and OB/GYN are starting to do the same. Check with the section for details, and refer to your Residency Process Booklet.

If you are applying in both Preliminary Medicine and transitional programs, you could use the same set of letters for both if the letters are generic in their specialty designation.

Guiding Principles for Listing Publications

• Be honest in representing all of your myriad accomplishments—but do not try to pad your application
  – Certain situations will require that you list things twice under two separate categories
  – Use your best judgement, and then…
  – Consult your Career Advisor!

• When it is not reasonable to list multiple similar or identical publications/presentations, list them once under their “highest value”. In order, that is:
  1. Manuscript
  2. Published abstract
  3. Oral presentation
  4. Poster presentation

• National > Regional > Local
FAQs: How to List Publications

Q: For poster presentations, should we list internal conferences like Medical Education Day or SRP?

A: Yes. Include poster presentations given at any formal, organized event, even if they are internal.

Q: If I was listed as an author on a poster or oral presentation but did not present it, should I list it?

A: Yes, you may include it as a poster; annotate who the presenting author was with an asterisk in the author line, or in a description box. Make sure you list the authors in the correct order.

Q: If I am going to do an oral presentation in a month, do I put "anticipated" oral presentations?

A: Yes, you may do that.
FAQs: How to List Publications (continued)

Q: Does my thesis defense count as an oral presentation?

A: No, it does not count as a separate oral presentation. It will be implied by your PhD.

Q: Do presentations in front of my departments or during rounds count?

A: No.

Q: Are abstracts considered published if they are published in a conference booklet only?

A: No, abstracts are not considered published if they are not disseminated beyond the conference. If they were a poster, though, you may put it in the poster section. Do not list things twice (i.e. once in a poster section and once in an abstract section—just list the abstract, if published).

Q: Can I list manuscripts currently in preparation?

A: No. However, if they have been submitted, you can choose submitted from the drop-down in ERAS. Be prepared to answer any questions about the status of the manuscripts.

Three steps to releasing your scores:

1. Authorize release through ERAS to sync current scores
2. Assign the USMLE score to a specific program (under the Programs section)
3. Once you receive updated Step 2 scores, go back into MyERAS and retransmit your scores
   - Think strategically about when or whether you want to release your Step 2 scores—discuss this with your Career Advisor or Dr. Woodruff.

Apply Smart: Data to Consider When Applying

Your likelihood of securing residency training depends on the programs you apply to.

Does submitting one more application always help?

Our researchers suspected that— unlike buying raffle tickets, where the more additional applications to residency do not necessarily increase chances— there was a point where the relationship between the number of applications submitted and the probability of getting matched was diminishing.

The Residency Explorer tool delivers insights about residency programs based on original-source, verified data.
When using the Apply Smart data, remember…

• No advice is one-size-fits-all.

• You may receive different advice from different advisors or mentors.
  – This is a complex process with multiple possible approaches and a high degree of uncertainty.
  – This happens all the time in life, not just in residency advising!

• Use all data and advice at your disposal to make the best decisions for you.
This is an NRMP ID, *not* an Accreditation ID. If you are looking up a program by number and not finding it, it’s likely to be an NRMP ID. We recommend searching by specialty instead.

From the NRMP: *The NRMP also has capped at 300 the number of ranks allowed for individual applicants and applicants participating in the Match as a couple. In addition… there will be a new Length of Rank Order List Fee. Lists with 100 or more ranks will incur stepped fees, up to a maximum of $200 until the 300 rank cap is reached. These changes are being made to prevent applicants from entering over-long ROLs, some of which have exceeded 700 ranks without any apparent benefit to the applicants’ Match outcome.*

Top 5 ERAS Points

1. Hit “Save” all of the time, and proofread.
   - View your ERAS application in both CV and “application” formats
   - Print your Assignment Report and make sure you assigned all your documents

2. Remember to click the final “Certify and Submit” button between September 1-28, and have your credit card ready! (We will send a reminder. Many reminders.)

3. Be deliberate when naming and assigning your letters and personal statements.

4. Track the status of your LORs and assign LORs to programs once they arrive.

5. You can add programs after Sept. 1, but be sure to re-assign your documents and USMLE scores.
ERAS Supplemental Applications

• Some programs in Dermatology, Internal Medicine, and General Surgery will be using a short, free supplemental application this year
  
  • A list of programs will be available in early August
  • *Required* for programs utilizing it
  • Will also open Sept. 1 and programs can receive Sept. 29
  • No additional fee

• You will NOT have to complete multiple supplemental ERAS applications. Your supplemental application. Your responses will be shared with all programs that are participating and to which you applied
ERAS Supplemental Applications

• What will the supplemental application entail? From ERAS:
  – Geographic information (by region or by urban/suburban/rural setting)
  – Information about their most meaningful work, volunteer or research experiences; and
  – Preference signals

*When we know more, we will advise further!*
