My full participation in this program will culminate in a presentation at the Research Forum as well as a stipend provided in two payments.

Some of the responsibilities associated with this program include participating in the Spring elective, reporting to the lab/mentor by Monday June 13, 2022 to begin the project and attend the activities identified in the *2022 SRP Guidelines and Requirements booklet*. This includes the Summer Research Program seminars as well as the Cluster Group meetings. (Any date conflicts are noted in my application for consideration.)

All assignments will need to be uploaded on time and validated by my mentor. Assignments will need to be validated prior to the receipt of stipend payments.

I will not hold a job during the 11 weeks that I am expected to devote to my project (Jun. 13th – Aug. 26th)

I will work closely with my mentor on my final paper and presentation. I will present my research project on the date and time that will be assigned to me (either August 24th or August 25th). I will also attend the Concluding Assembly on August 26th.
