Covid-19

- To reduce the impact of COVID isolation practices on student participation in preclinical classwork, clinical skills activities, and assessments, the Pritzker leadership is shifting its stance regarding COVID infection policies.

- All students will continue to have access to COVID **TESTING** at UCM Occupational Medicine.

- **ISOLATION** and **MASKING** policies will vary depending upon the nature of your intended activity on campus.

Free Covid Tests from HHS starting end of month: https://aspr.hhs.gov/covid-19/test/Pages/default.aspx

- **Classroom and non-clinical experiences** occurring outside clinical venues (ex. in the BSLC), Pritzker students should follow isolation and masking as outlined in the University of Chicago Policy.

- **Clinical experiences** (clinical shadowing, patient interviews etc.), Pritzker students should follow isolation and masking as outlined in the UCM Policy.

Residency Application Update: ERAS Change

- The following question on the ERAS application was narrowed this year to focus solely on academic and professional issues resulting in interruptions/extensions:

  "Have you had any unplanned professionalism or academic issues in your medical education or training that caused an interruption or extension?
  Note: This section is not intended to solicit information about your health, disability, or family status."

- When to select "Yes"

  – NOT for planned research year/fellowship, dual degree, or PhD
